

Introducing your newsletter

Welcome to the StoneRock Newsletter. StoneRock is continuing to grow and is ever mindful of the needs and wants of its patients. We are constantly striving to provide up to the minute treatments and wide ranging and varied techniques to make the patient journey a comprehensive and rewarding one. There are a number of exciting new additions to our team and new

techniques we can now offer. We hope the newsletter will highlight the new and exciting treatments that are now available at StoneRock.

As always we are keen on patient feedback on all aspects of patient care.

If you wish to contact any member of the team please call us on 01580 752202 or email info@stonerock.co.uk and we will be more than happy to help.

Cosmetic Facial Clinic @ StoneRock

StoneRock Dental Care are proud to announce the opening of the Cosmetic Facial Clinic by welcoming Paul Kirkland (FRCS) one of the UK's leading Facial Plastic Surgeons. Paul specialises in reconstructive and aesthetic facial surgery and minimally invasive non surgical cosmetic treatments.

At StoneRock he will perform non surgical facial rejuvenation treatments such as Botox, Dermal Fillers, Cheek Sculpting, Tear Trough (non surgical eye bag removal) and Lip Enhancement.

He will also run a one stop facial skin lesion clinic and be available for consultation

for facial plastic and cosmetic surgical procedures including Rhinoplasty (nose reshaping), Blepharoplasty (eyelid surgery) and Otoplasty (Ear correction).

The Cosmetic Facial Clinic ensures that your treatment will be carried out by a highly trained surgeon with an expertise in facial cosmetic procedures. Paul Kirkland personally sees all clients from the initial consultation through to the post treatment period. Whilst dedicated to achieving outstanding results, he ensures that you are fully informed at all stages and that your expectations are realistic. He offers both men and women innovative and advanced anti-ageing techniques in a hygienic and safe environment.

There are many reasons why someone may consider facial plastic surgery

COSMETIC FACIAL CLINIC

www.cosmeticfacialclinic.com

and non-surgical facial rejuvenation treatments. These may include birth disfigurements eg birthmarks, facial deformities such as cleft lip, following an accident/burn and treatment of skin cancers. Many choose to change some of the signs of premature aging or the shape or size of a facial feature that has concerned them for years.

Whatever the reason for considering a cosmetic facial procedure, professional advice from an experienced and suitably qualified surgeon is essential. By choosing the Cosmetic Facial Clinic at StoneRock you are putting your face in safe and expert hands.

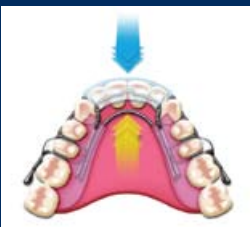

Please contact StoneRock for further information or to make your appointment with Paul Kirkland

Straighten Teeth Fast with Inman Aligner

Until now, the alternatives to straighten front teeth involved either long and expensive orthodontic treatments or potentially destructive restorative treatments such as veneers or crowns. Even ultrathin veneers involve reduction of natural teeth when used to align crowding or prominent front teeth.

But with the arrival of the Inman Aligner, all that has changed.

The Inman Aligner is a cost-effective removable orthodontic appliance that moves teeth in a fraction of the time of other systems. It aligns crowded or protruding anterior teeth with two opposing spring loaded aligner bars. This provides gentle but continuous pressure over a large range of movement. Surprisingly, this gentle pressure

is the quickest way to move teeth but it also makes treatment very safe and kind to teeth.

People love the speed of treatment and it's changing the face of dentistry as we know it. The average treatment time is only 4-16 weeks and now with concerns over the economy it's a more justifiable expense.

Only certified Inman Aligner dentists can provide them. Dr Russell Blanchard has achieved this certification and now provides Inman Aligners, here at StoneRock Dental Care.

"The Inman Aligner is one of the greatest innovations in dentistry of recent years. It's fast, affordable and kind to teeth. It really is a great option to straighten crowded front teeth."

If you want to find out more about this treatment or to arrange a consultation with Russell please call 01580 752202 or email info@stonerock.co.uk.

The Partners @ StoneRock

It has been a busy time for Russell Blanchard and Ian Kerr, partners at StoneRock as they continue to improve all the services available at StoneRock. They have recently attended a course together on customer service and hopefully you will notice some new treats around the practice! Russell and Ian have also been furthering their own skills.

Russell's great passion in creating beautiful smiles continues by utilising many approaches including direct bonding techniques learnt in Switzerland.

When ceramic veneers are still required he now feels a greater ability to provide better results

with less preparation using the Inman Aligner.

For examples of clinical cases please go to www.blog.stonerockdentalcare.com or look through our Cosmetic Dentistry book at the practice.

Ian's devotion to his work continues whether it be treating advanced root treatment and restorative cases referred to him by local dentists or lecturing nationally and in Finland on 'Fibre Reinforced Composites' of which he is recognised as an authority.

With the advent of SR Seminars, StoneRocks training arm, Ian will be educating other practitioners in the most up to date methods of root treatment he learnt whilst studying in Phoenix, Arizona this year.

If you want to find out more about the treatment offered by Russell or Ian please call 01580 752202 or email info@stonerock.co.uk.

The Specialists @ StoneRock

StoneRock has now become a referral centre for local dentists thanks to our resident specialists. We can now offer complex specialist treatments in house. Anyone concerned with what they consider to be difficult dental problems should let one of StoneRocks dedicated team know and we would be happy to point you in the right direction.

Dr Richard Porter works with us placing and restoring dental implants as well as advising on and treating extreme dental cases. Richard is a specialist in restorative dentistry, periodontics, prosthodontics and endodontics.

He has extensive experience in complex planning and problem solving. He has recently featured in Hello magazine providing his opinion on whitening treatments.

Richard takes pride in his honest approach to patient care, the quality of his work and his ability to empathise with his patients.

Dr Mitchell Mbaeri works along side our excellent hygiene team. She is a specialist Periodontist who can treat the most difficult of gum disease patients. If there is a chance to save those affected teeth Mitchell can help to find a way.

Mitchell sees both internal and external referrals from across the region and believes in an open and comprehensive approach for her patients treatment and maintenance care.

If you want to find out more about the treatment offered by Richard or Mitchell please call 01580 752202 or email info@stonerock.co.uk.

Joining with The Moor

StoneRock has recently merged with The Moor Dental care in Hawkhurst to provide the local community with access to a full range of dental services. The Moor will continue to provide affordable, ethical, quality care with the added benefit of fast track referral to the specialists at StoneRock. StoneRock is delighted to welcome Keith Peirce, a former principal of The Moor, to work along side us at StoneRock Dental Care providing routine dental care and implant dentistry. Keith has been part of Hawkhurst's community for many years and has considerable experience in providing all aspects of dentistry to his patients.

SR Seminars

Ian and Russell have launched a Dental Education programme where they will provide hands on and educational dental courses to other members of their profession. They have also invited a number of top international speakers to provide seminars and workshops over the coming year.

StoneRock Dental Care is dedicated to the pursuit, promotion and provision of excellence.
